

XAI_001 | INTERNAL | CORRECT | Confidence=100.00%
True: Bacterial spot | Predicted: Bacterial spot
Roles: internal_representative_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Bacterial spot

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_002 | INTERNAL | CORRECT | Confidence=100.00%
True: Early blight | Predicted: Early blight
Roles: internal_representative_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Early blight

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_003 | INTERNAL | CORRECT | Confidence=100.00%
True: Late blight | Predicted: Late blight
Roles: internal_representative_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Late blight

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_004 | INTERNAL | CORRECT | Confidence=100.00%
True: Leaf Mold | Predicted: Leaf Mold
Roles: internal_representative_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Leaf Mold

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_005 | INTERNAL | CORRECT | Confidence=100.00%
True: Septoria leaf spot | Predicted: Septoria leaf spot
Roles: internal_representative_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Septoria leaf spot

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_006 | INTERNAL | CORRECT | Confidence=100.00%
True: Yellow Leaf Curl Virus | Predicted: Yellow Leaf Curl Virus
Roles: internal_representative_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Yellow Leaf Curl Virus

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_007 | INTERNAL | CORRECT | Confidence=100.00%
True: Mosaic Virus | Predicted: Mosaic Virus
Roles: internal_representative_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Mosaic Virus

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_008 | INTERNAL | CORRECT | Confidence=100.00%
True: healthy | Predicted: healthy
Roles: internal_representative_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
healthy

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_009 | INTERNAL | WRONG | Confidence=99.99%
True: Early blight | Predicted: Late blight
Roles: internal_all_incorrect

Model Input

Predicted-Class CAM
Late blight

True-Class CAM
Early blight

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_010 | INTERNAL | CORRECT | Confidence=89.71%
True: Late blight | Predicted: Late blight
Roles: internal_relative_lowest_confidence

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Late blight

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_011 | INTERNAL | CORRECT | Confidence=78.91%
True: Septoria leaf spot | Predicted: Septoria leaf spot
Roles: internal_relative_lowest_confidence

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Septoria leaf spot

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_012 | INTERNAL | CORRECT | Confidence=90.92%
True: Septoria leaf spot | Predicted: Septoria leaf spot
Roles: internal_relative_lowest_confidence

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Septoria leaf spot

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_013 | EXTERNAL | CORRECT | Confidence=100.00%
True: Early blight | Predicted: Early blight
Roles: external_representative_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Early blight

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_014 | EXTERNAL | CORRECT | Confidence=100.00%
True: Late blight | Predicted: Late blight
Roles: external_representative_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Late blight

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_015 | EXTERNAL | CORRECT | Confidence=99.56%
True: Leaf Mold | Predicted: Leaf Mold
Roles: external_representative_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Leaf Mold

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_016 | EXTERNAL | CORRECT | Confidence=100.00%
True: Septoria leaf spot | Predicted: Septoria leaf spot
Roles: external_representative_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Septoria leaf spot

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_017 | EXTERNAL | CORRECT | Confidence=98.83%
True: Yellow Leaf Curl Virus | Predicted: Yellow Leaf Curl Virus
Roles: external_representative_correct

Model Input

Amer
April

Grad-CAM++ Heatmap

Predicted / True CAM
Yellow Leaf Curl Virus

Amer
April

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_018 | EXTERNAL | CORRECT | Confidence=92.21%
True: healthy | Predicted: healthy
Roles: external_representative_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
healthy

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_019 | EXTERNAL | WRONG | Confidence=99.96%
True: Bacterial spot | Predicted: Septoria leaf spot
Roles: external_representative_incorrect

Model Input

Predicted-Class CAM
Septoria leaf spot

True-Class CAM
Bacterial spot

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_020 | EXTERNAL | WRONG | Confidence=99.73%
True: Early blight | Predicted: Septoria leaf spot
Roles: external_representative_incorrect

Model Input

Predicted-Class CAM
Septoria leaf spot

True-Class CAM
Early blight

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_021 | EXTERNAL | WRONG | Confidence=100.00%

True: Late blight | Predicted: Early blight

Roles: external_representative_incorrect;external_high_confidence_incorrect

Model Input

Predicted-Class CAM
Early blight

True-Class CAM
Late blight

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_022 | EXTERNAL | WRONG | Confidence=98.90%
True: Leaf Mold | Predicted: Early blight
Roles: external_representative_incorrect

Model Input

Predicted-Class CAM
Early blight

True-Class CAM
Leaf Mold

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_023 | EXTERNAL | WRONG | Confidence=99.99%
True: Septoria leaf spot | Predicted: Early blight
Roles: external_representative_incorrect

Model Input

Predicted-Class CAM
Early blight

True-Class CAM
Septoria leaf spot

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_024 | EXTERNAL | WRONG | Confidence=97.80%
True: Yellow Leaf Curl Virus | Predicted: Late blight
Roles: external_representative_incorrect

Model Input

Predicted-Class CAM
Late blight

True-Class CAM
Yellow Leaf Curl Virus

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_025 | EXTERNAL | WRONG | Confidence=93.32%
True: Mosaic Virus | Predicted: Late blight
Roles: external_representative_incorrect

Model Input

Predicted-Class CAM
Late blight

True-Class CAM
Mosaic Virus

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_026 | EXTERNAL | WRONG | Confidence=96.57%
True: healthy | Predicted: Late blight
Roles: external_representative_incorrect

Model Input

Predicted-Class CAM
Late blight

True-Class CAM
healthy

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_027 | EXTERNAL | CORRECT | Confidence=100.00%
True: Early blight | Predicted: Early blight
Roles: external_high_confidence_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Early blight

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_028 | EXTERNAL | CORRECT | Confidence=100.00%
True: Early blight | Predicted: Early blight
Roles: external_high_confidence_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Early blight

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_029 | EXTERNAL | CORRECT | Confidence=100.00%
True: Late blight | Predicted: Late blight
Roles: external_high_confidence_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Late blight

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_030 | EXTERNAL | CORRECT | Confidence=100.00%
True: Late blight | Predicted: Late blight
Roles: external_high_confidence_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Late blight

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_031 | EXTERNAL | CORRECT | Confidence=100.00%
True: Septoria leaf spot | Predicted: Septoria leaf spot
Roles: external_high_confidence_correct

Model Input

Grad-CAM++ Heatmap

Predicted / True CAM
Septoria leaf spot

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_032 | EXTERNAL | WRONG | Confidence=100.00%
True: Early blight | Predicted: Late blight
Roles: external_high_confidence_incorrect

Model Input

Predicted-Class CAM
Late blight

True-Class CAM
Early blight

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_033 | EXTERNAL | WRONG | Confidence=100.00%
True: Late blight | Predicted: Leaf Mold
Roles: external_high_confidence_incorrect

Model Input

Predicted-Class CAM
Leaf Mold

True-Class CAM
Late blight

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_034 | EXTERNAL | WRONG | Confidence=100.00%
True: Septoria leaf spot | Predicted: Early blight
Roles: external_high_confidence_incorrect

Model Input

Predicted-Class CAM
Early blight

True-Class CAM
Septoria leaf spot

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_035 | EXTERNAL | WRONG | Confidence=100.00%
True: Yellow Leaf Curl Virus | Predicted: Late blight
Roles: external_high_confidence_incorrect

Model Input

Predicted-Class CAM
Late blight

True-Class CAM
Yellow Leaf Curl Virus

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_036 | EXTERNAL | WRONG | Confidence=54.55%
True: Bacterial spot | Predicted: Septoria leaf spot
Roles: external_low_confidence

Model Input

Predicted-Class CAM
Septoria leaf spot

True-Class CAM
Bacterial spot

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_037 | EXTERNAL | WRONG | Confidence=55.31%
True: Yellow Leaf Curl Virus | Predicted: Late blight
Roles: external_low_confidence

Model Input

Predicted-Class CAM
Late blight

True-Class CAM
Yellow Leaf Curl Virus

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_038 | EXTERNAL | WRONG | Confidence=44.07%
True: Yellow Leaf Curl Virus | Predicted: Bacterial spot
Roles: external_low_confidence

Model Input

Predicted-Class CAM
Bacterial spot

True-Class CAM
Yellow Leaf Curl Virus

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_039 | EXTERNAL | WRONG | Confidence=37.74%
True: Mosaic Virus | Predicted: Leaf Mold
Roles: external_low_confidence

Model Input

Predicted-Class CAM
Leaf Mold

True-Class CAM
Mosaic Virus

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.

XAI_040 | EXTERNAL | WRONG | Confidence=58.18%
True: healthy | Predicted: Late blight
Roles: external_low_confidence

Model Input

Predicted-Class CAM
Late blight

True-Class CAM
healthy

Semantic review: disease-region alignment, background attention, attention focus, and visible image context.
